### 3.1 Budgeting for social events

To analyse prices and produce a budget for a social event

- You've offered to do the costing for a paintballing trip for you and three of your friends. Include all incidental costs to get a true figure of what it will cost. Use the Internet to do your research.

**Budget for paintballing trip**

	Cost per person €	Cost for four €
Transport to/from the venue: • Car • Bus • Train		
Entrance to venue		
Additional paint balls		
Lunch (if purchased on site)		
Lunch (if you bring your own)		

- On the basis of your research, give your friends two options with total the cost of each.

OPTION A	OPTION B
TOTAL COST €	TOTAL COST €

- Two local restaurants are running special deals. Both are good value for money.

**Moon Restaurant**

A la carte menu

Starter: €4.50 - €12.00

Main course: €13.75 - €26.00

Vegetables: €5.00 per person

Desert: €5.50

Tea/coffee: complimentary

**Sun Restaurant**

Limited menu

3 courses for €24.00

Starter: one of four choices

Main course: one of four meat and two vegetarian options

Desert or Tea/coffee: one of three options

What would be the cost of the cheapest meal in the Moon Restaurant?

What would be the cost of the most expensive meal in the same restaurant?

Name an advantage that the Sun Restaurant menu offers.

Name an advantage that the Moon Restaurant menu offers.

Which choice would you make and why?

**CONCLUSION: What I have done...**
